OPPORTUNITY

  
**EQUINOX**<sup>®</sup>  
LOUVERED ROOF

# What is Equinox®?

Equinox® is a louvered roof system that moves at your command for full sun, filtered shade, or fully closed for sun and rain protection, allowing you to maximize the potential of your outdoor space. No matter what the occasion, **live life uninterrupted.**

## Why Equinox®?

The Equinox® Louvered Roof is manufactured with quality elements and precision engineered for exclusive comfort and control. Equinox® enhances any outdoor space through uncompromising versatility and style. Our patio system is strong, conforming to most wind and snow load requirements. Incorporate new elements that seamlessly integrate into an Equinox® Louvered Roof system such as **misters, heaters, all-new lighting systems, screens, and rain/wind sensors.**

The Equinox® system is the ideal upgrade for any restaurant, hospitality or event venue, hotel, club house or revenue generating space. A fully customizable Equinox® system is ideal for clients seeking to increase the usable outdoor seating or entertainment area. This versatile system can be designed to fit any architectural style. Visit [EquinoxRoof.com](http://EquinoxRoof.com) to find more inspiration and design ideas.

## COMFORT & PROTECTION

The Equinox® Louvered Roof system embodies smart design that maximizes use and profit potential for outdoor spaces. Elevate environments with on-demand sunlight, shade or rain protection. Your Equinox® system's optional rain, wind and sun sensors automatically control your louvers based on current weather conditions.

- Increase dining options and capacity
- Versatile & Customizable – integrates with any architectural style
- Motorized for on-demand environment control
- Create a variety of different atmospheres within your outdoor space
- Full gutter system for dripless rainwater management
- All metal materials that withstand conditions in any environment

**ADDITIONAL FEATURES:** Lights, Fans

# INNOVATIVE

Redefining what's possible

## Precision Engineered Motor and Louvers

An innovative and robust mechanical drive system moves the louvers into the perfect position for ventilation, sun blocking or rainfall protection. Designed with extruded aluminum, the system is strong, lightweight and durable. The low maintenance louvers can be positioned for the perfect amount of protection or ventilation.

## Built-In Gutters

The Equinox® Louvered Roof system utilizes a high-capacity integrated hidden gutter system that manages rainwater runoff. At installation, the louvered roof is precisely angled to ensure that rainwater flows into the gutters along the perimeter of the system, keeping your space dry and comfortable.

## All Metal Construction

The Equinox® Louvered Roof is made from extruded aluminum and offers greater durability and longevity than traditional wood, composite or steel patio covers. Equinox® Louvered Roof aluminum components are made to last and will outperform in heat and rain. Your Equinox® pergola will deliver long-term performance without the use of paint, stain or harmful cleaning chemicals. Enjoy low-maintenance, corrosion-resistant and insect-proof construction that stands the test of time.

## Rain & Wind Sensors

These state-of-the-art sensors are designed to protect your Equinox® Louvered Roof system even when you're not home. They detect weather occurrences and automatically adjust your louvers, screens, and more to prevent damage, maximize energy savings and ensure your comfort everyday. The system will close your roof during an unexpected downpour or open it during windy conditions.

**MIAMI-DADE COUNTY**  
**APPROVED**

**BUILT  
TO  
PERFORM**

**UP TO 3x**  
longer life  
than traditional  
wood or  
composite.

## COLORS AND FINISHES

Available in a variety of colors, the Equinox® Louvered Roof system enhances outdoor living areas. Virtually any material and finish can be applied to the Equinox® Louvered Roof frame to achieve your desired look and feel with custom colors and configurations.

## POSTINO

## Optimize seating, maximize revenue.

Covering your restaurant's patio with an Equinox® Louvered Roof will extend its use during rainy and excessively hot or sunny days. Calculate the potential revenue increases for your business in the chart below or visit

[Equinox®Roof.com/resources/roi-calculator](https://EquinoxRoof.com/resources/roi-calculator)

### Your patio seating

**Step 1:** Enter the number of your outdoor tables.

Multiply the number of outdoor tables by appropriate number of tops.

1-Person Outdoor Bar Stools	1 x
2-Person Outdoor Tables (2 Tops)	2 x
4-Person Outdoor Tables (4 Tops)	4 x
6-Person Outdoor Tables (6 Tops)	6 x
8-Person Outdoor Tables (8 Tops)	8 x
<b>TOTAL Patio Seating</b>	

**Step 2:** Fill in the chart below.

Number of Table-Turns per Day	
Average Revenue per Patron (in dollars)	
<b># of Rainy and Sunny/Hot Days per Year</b>	

**Step 3:** Insert the information from above into the correct fields below and multiply.

$$\left( \frac{\text{Total Patio Seating}}{\text{Number of Table-Turns}} \times \frac{\text{Average Revenue Per Patron}}{\text{# of Rainy and Hot Days per Year}} \right) \times \text{Estimated Increased Annual Revenue}$$

# PEACE of MIND

## 20-Year Warranty

Equinox® Louvered Roof systems are made to last. Equinox® Louvered Roof is made from all metal components providing greater durability than traditional patio covers. Unlike plastic or fabric, our metal components will perform in both heat and rain environments. We are committed to bringing you products of the highest quality and value. *(The 20 year warranty only applies to the aluminum parts and paint. Electrical items and the control system have a 3 year warranty.)*

Envision your Equinox® Louvered Roof system complementing your home and lifestyle. Applications include patios, decks, spas, swimming pools, outdoor kitchens, BBQ areas, gazebos, courtyards, entryways or anywhere that sun, light and weather control is desired.
