HAND-HELD CONTROL

Upgraded Controllers are now available for your Equinox! You can now offer more flexibility and offerings to your Equinox system with these new controllers! Offered in 2 standard kits, a 2 Bay Kit, and a 4 Bay Kit.

FEATURES

- Control from 1 to 4 motors
- Link multiple units
- Low voltage operation
- Rain sensor input standard
- Factory pre-programmed

Remote Control

BENEFITS

- Users are able to simultaneously control up to 4 motors at one time
- Energy efficient

The Hub is an additional component that allows for control of the Equinox system with your smartphone. In addition, the hub will allow you you control other smart home devices from one easy application.

EQUINOX ADVANTAGE

- With the integrated speed controller, you can set the speed of your motors
- Each Controller Kit comes with a rain sensor, which will automatically close your Equinox if it starts to rain
- Ability to add "The Hub" which utilizes bluetooth technology to be able to control your roof from a mobile device
- Patented louver design for strength and stability meeting Miami-Dade County specifications

ADVANCED MOTOR

- 12" stroke to allow full 180 degree movement of louvers
- IP66 Protection Class which prevents dust and water from entering motor, it can even be sprayed with high powered pressure washer
- 200lbs of force to move larger bays
- Low power consumption
- Mechanical component materials designed for the long term
- Tested to over 20,000 cycles
